Whether you're planning new construction or increasing your energy service needs, we welcome the opportunity to work with you.

Please complete a Service Application as soon as you receive your building permit. This will ensure that we can best meet your needs as quickly as possible. Apply for service installations or changes using our online applications and checklists. Find applications or service request details in the [Construction & Remodeling section of My Service](#).

Your BGE representative will be working with you throughout your service request process and can answer any questions you have. If you need immediate help during the Construction/Restoration phase, call BGE at 1-800-233-1854
