Notes:
¹ Seasonal and Weighted Supply Price Information may change slightly beginning in February, June and October due to scheduled changes in the Rider 8 and Rider 1 Adjustments, and Transmission charges (June). The Supply Price for June 1, 2020 through September 30, 2020 will be set in October 2019. A Type II comparison is not determined as these rates change every 3 months.
² Rider 8 - Energy Cost Adjustment is used to true-up the actual costs of providing retail energy supply to our customers. It compares actual customer billings for electric supply against payments by BGE to the wholesale suppliers for that electricity. The comparison uses only known Rider 8 values.
³ Schedule SL includes Rider 8 for the annual period ending May 31, 2020.
