**Re: Supplement No. 686 to P.S.C. Md. E-6
Case Nos. 9056/9064 - October 2022 Cost True-up of Administrative Charges under
Rider 1 – Standard Offer Service
Order No. 90298 Compliance Filing - Schedule RD – Residential Delivery and Energy
Time-of-Use**

Dear Mr. Johnston:

Baltimore Gas and Electric Company (BGE or the Company) files herewith Supplement 686 to P.S.C. Md. E-6, BGE's Retail Electric Service Tariff. This filing revises Rider 1 – Standard Offer Service (SOS) to include the October 2022 true-up of the SOS Administrative Charges for Residential, Type I and Type II rates. Supplement 686 also revises Schedule RD energy and transmission rates to comply with certain changes in the Commission Order No. 90298 which authorizes expanded enrollment of the former pilot rate schedule. The Company is requesting Supplement 686 to be effective October 1, 2022.

Under Rider 1, the SOS Administrative Charges are subject to adjustment in the February, June and October billing months to reflect the estimated incremental, uncollectible and cash working capital costs of providing Residential, Type I, Type II and Hourly Service. Effective October 2022, the Company performed its true-up of actual incremental, uncollectible, and cash working capital costs to the estimated costs of providing Residential, Type I, Type II and Hourly Service. Any over- or under-collection of costs compared to the estimated costs for the program year are included in the projected Rider 1 rates herein. The proposed SOS Administrative Charges are effective for the period October 1, 2022 through January 31, 2023, with the next adjustment scheduled to be effective with February 2023 bills.

With this filing, the total SOS Administrative Charges for Residential, Type I and Type II, and Hourly Service will change effective with October 2022 bills from 3.13 mills per kWh, 2.66 mills per kWh, 3.01 mills per kWh, and 2.75 mills per kWh to 3.11 mills per kWh, 2.60 mills per kWh, 2.99 mills per kWh and 2.91 mills per kWh, respectively. The individual proposed cost components of BGE's Administrative Charge for Residential, Type I, Type II and Hourly Service customers are shown below.

Components	Residential	Type I	Type II	Hourly
Incremental Charge	0.09 mills/kWh	0.10 mills/kWh	0.10 mills/kWh	0.08 mills/kWh
Uncollectible	0.62 mills/kWh	0.21 mills/kWh	0.14 mills/kWh	0.00 mills/kWh
CWC Revenue Requirement	0.72 mills/kWh	0.67 mills/kWh	1.14 mills/kWh	1.18 mills/kWh
Return	0.59 mills/kWh	0.53 mills/kWh	0.52 mills/kWh	0.56 mills/kWh
Administrative Adjustment	1.09 mills/kWh	1.09 mills/kWh	1.09 mills/kWh	1.09 mills/kWh
Total	3.11 mills/kWh	2.60 mills/kWh	2.99 mills/kWh	2.91 mills/kWh

As noted above, this filing also revises Schedule RD energy and transmission rates to comply with certain changes included in the Commission Order No. 90298 – specifically changes to the On-Peak period during both the Summer and Non-Summer. BGE is separately filing today changes to the Schedule RD terms and delivery rates to comply with Order No. 90298, also effective October 1, 2022.

Attachment 1 includes red-lined and clean versions of these Tariff pages, showing the changes to Rider 1, as well as Schedule PL, for which certain rates change as a result of the proposed SOS Administrative Charge.

BGE respectfully requests consideration of the proposed Rider 1 and Schedule PL charges no later than the Commission's September 21, 2022 Administrative Hearing to ensure customers are billed the proposed rates timely.

Pursuant to the Commission's March 16, 2020, Notice of Waiver and Relaxed Filing Requirements, the Company will not provide paper copies of this filing.

Sincerely,

John C. Frain

Schedules. GL, P & T - Type II SOS	Transmission Demand Charge	-	-	-	-	3.81	-	3.81	-

Note:
¹ The Administrative Charge rates typically change every February, June and October.

² Tax Rates:
 Gross Receipts Tax (GRT) = 2% (Transmission only)
 PSC Assessment = 0.2222% (Effective October 2024)
 PSC Assessment = 0.2773% (Effective October 2022)

³ Charge per lamp-watt (¢/lamp-watt) = 5.887 ¢/kWh x 0.333 = 1.960 ¢/lamp-watt; Sch. PL rate reflected in lamp fixture and renewal rates, effective 06/01/2022

³ Charge per lamp-watt (¢/lamp-watt) = 5.885 ¢/kWh x 0.333 = 1.960 ¢/lamp-watt; Sch. PL rate reflected in lamp fixture and renewal rates, effective 10/01/2022

* For customers participating in Rider 6 - Vehicle Charging TOU (VC-TOU) Adjustment Program, the VC-TOU On-Peak and Off-Peak Total SOS Rates are equal to the Schedule EV On-Peak and Off-Peak Total SOS Rates, respectively. The Vehicle Charging Adjustment is based on the sum of 1) Schedule EV (On-Peak) Total SOS Rate minus the Schedule R Total SOS Rate multiplied by the eligible smart EV charger's On-Peak kWh and 2) Schedule EV (Off-Peak) Total SOS Rate minus the Schedule R Total SOS Rate multiplied by the eligible smart EV charger's Off-Peak kWh. For more information, see Rider 6 - Vehicle Charging Time-of-Use Adjustment.

Total SOS rates exclude Rider 8 - Energy Cost Adjustment

Hourly Administrative Charge = 0.275 ¢/kWh effective 06/01/2022

Hourly Administrative Charge = 0.291 ¢/kWh effective 10/01/2022

**PRIVATE AREA LIGHTING – ELECTRIC
SCHEDULE P L**

AVAILABILITY: For unmetered outdoor area lighting of private property.

MONTHLY RATES:

1. For supply of controlled electricity installation and maintenance of overhead supplied lamp fixtures and lamp renewals as required for each. The rates include the cost of the smart lighting control service.

<u>Billing Watts</u>	<u>Description</u>	<u>Rate</u>
<u>Mercury Vapor (limited to existing installations)</u>		
117	100w MV Pendant	\$9.51
205	175w MV Pendant	\$11.65
454	400w MV Pend/Flood	\$17.90
