

How will you
respond
in a storm?

DELIVERY
SMARTENERGY > RELIABILITY
SAFETY

Smart energy. It's how BGE and you— together—handle the impact of storms. It begins when you call **877.778.2222** to report an outage. Our goal is to restore your power as safely and quickly as possible, while we also work to address priorities such as public safety and the needs of critical facilities, including 911 call centers and hospitals. Widespread damage may require replacing larger power lines and equipment before restoring transformers and smaller power lines serving your home or business. Be assured that together, we'll power through whatever nature brings. To learn more, visit **BGE.COM/StormCenter**.
